18V 5L Sprayer

LXT

DUS054

Product Statement

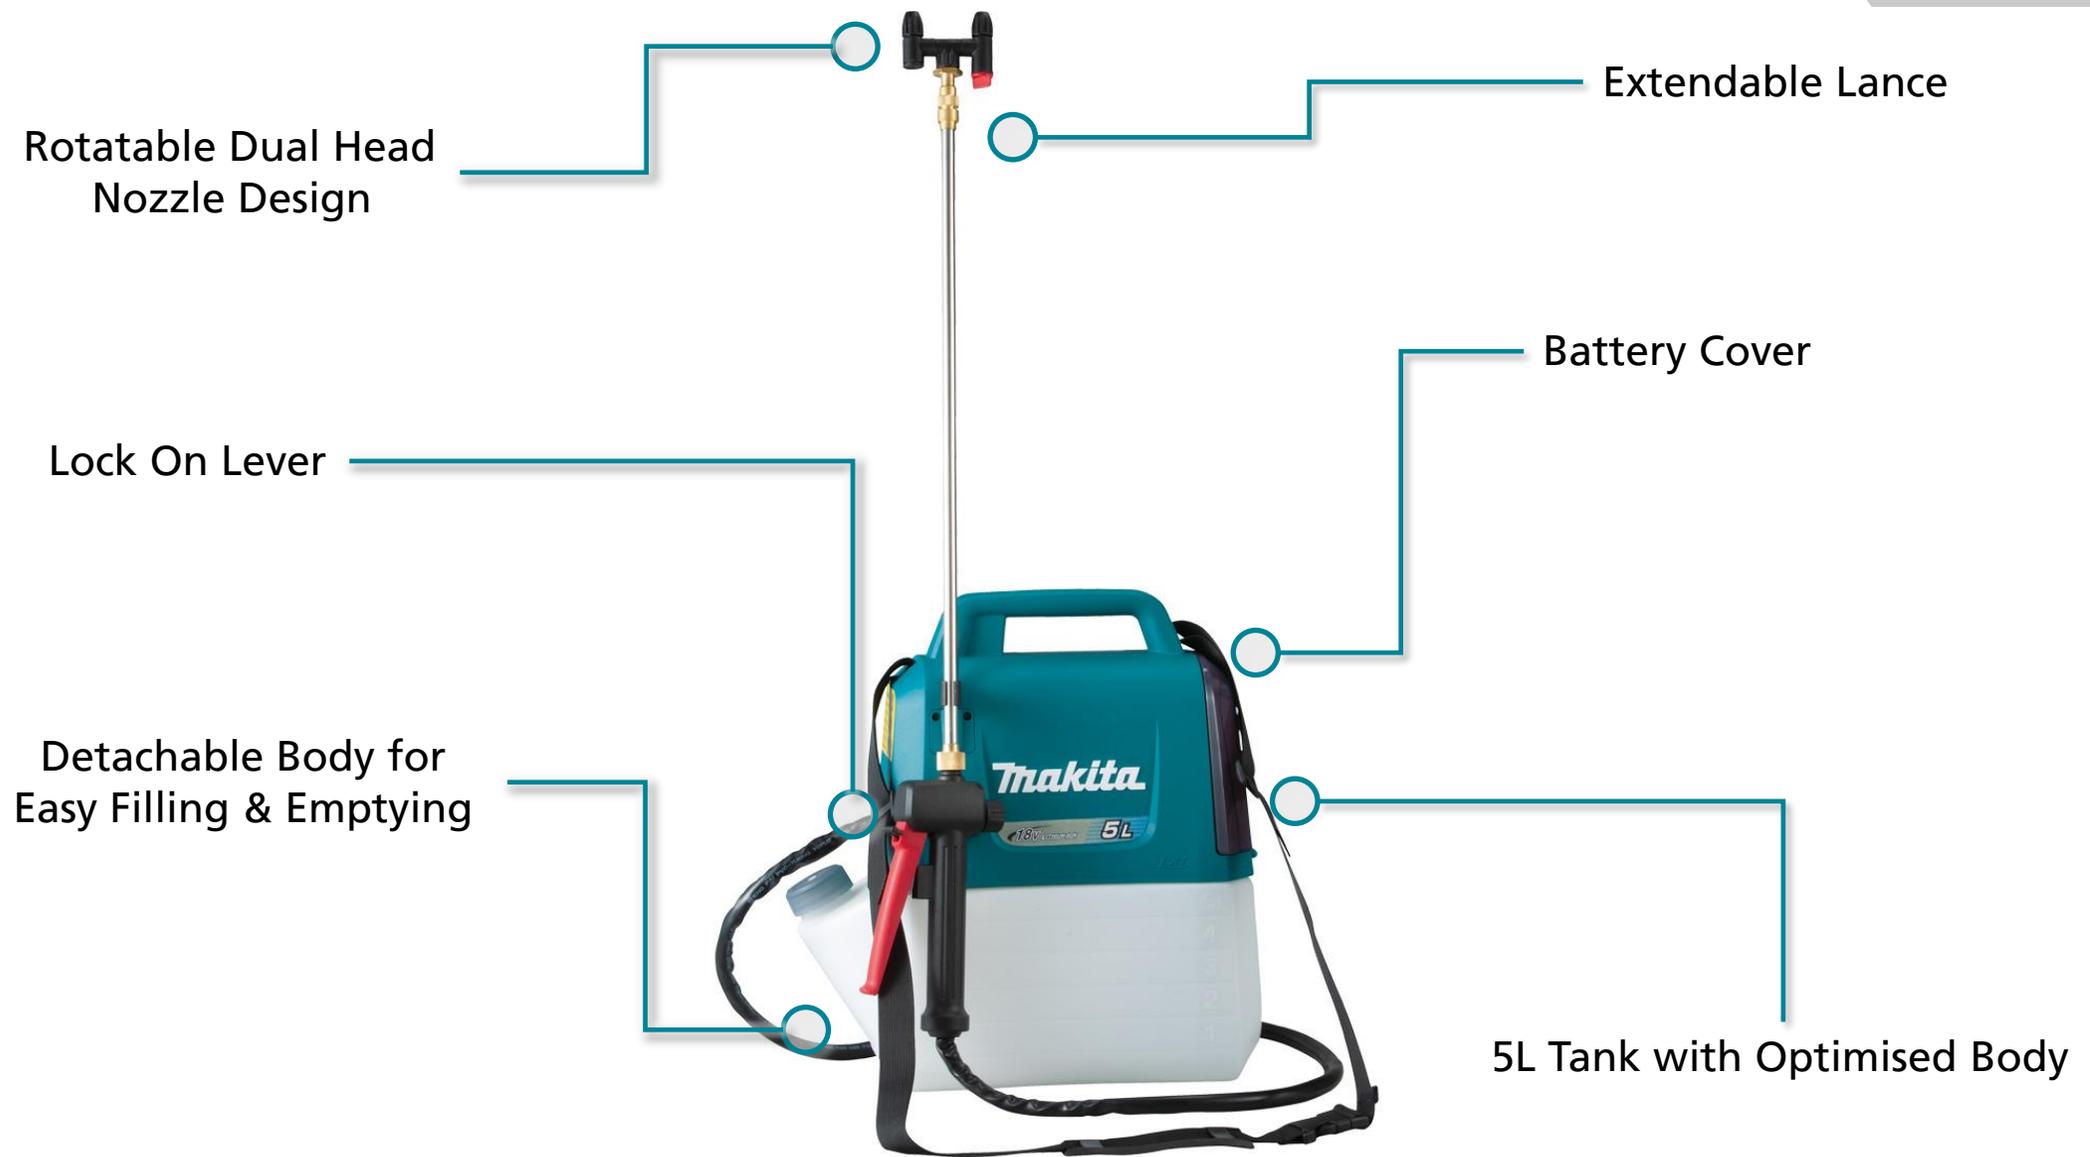

The DUS054Z – 18V 5L Sprayer provides an efficient and lightweight spraying option for a wide variety of tasks. Removing the effort required to pump, the DUS054 delivers up to 0.45L/min allowing for efficient spraying.

It features an extendable lance with a dual head design on the sprayer nozzle to allow the user to quickly switch between mist and jet spraying modes.

It comes standard with a shoulder harness and has been designed with an optimised tank body which allows it to sit comfortably next to the user's hip. The handle features a lock on button to remove the need to constantly engage the trigger whilst also featuring an auto stop feature which recognizes when the handle isn't engage and turns the motor off, providing longer overall runtimes.

Product Overview

Product Specification Sheet

Tank Capacity	5L
Maximum Pressure	0.3MPa
Discharged Water Volume	Mist: 0.3L/min Jet: 0.45L/min
Runtime (with 6.0Ah battery)	Up to 8 hrs
Overall Length	340mm
Skin Weight	2.9kg
Weight (with battery)	3.5kg
Voltage	18V

- **Rotatable Dual Head Nozzle Design** – select either a jet or mist spray to match for the job at hand, perfect for up close jobs and jobs at distance. For wider reach, use both heads in mist mode to cover more area and spray at any angle thanks to the rotating nozzles.
- **Lock On Lever** – provides the ability to lock the trigger in place for continuous spraying, ideal for larger jobs where constantly engaging the trigger would increase user discomfort
- **Detachable Body for Easy Filling and Emptying** – the motor housing can be separated from the tank which allows for efficient filling and mixing of liquids.
- **Extendable Lance** – provides spraying capabilities for jobs in high places removing the need for a ladder
- **Battery Cover** – prevents your battery from being damaged by any splashing or water from the unit of the job at hand thanks to a sealed battery compartment
- **5L Tank with Optimised Body** – tank design sits comfortably next to the user when used with the harness providing maximum comfort.

Performance

Maximum Permissible Pressure: 0.3MPa

Convenience

Easy fill tank with measuring cup inside cap

Versatility

Rotatable Dual Head Nozzle Design for efficient coverage

Protection

Covered battery compartment to minimize any water getting in

Standard Accessories

	Measuring Cup	PR00000180
	Nozzle Head	PR00000142
	Shoulder Strap	PR00000128
