Handle Range 2022

The Häfele furniture handles collection 2022 offers you a wide range of ideas. There are impressive character actors for an elegant performance. Personalities that convince with a sophisticated play of light and shadow on the furniture's surfaces. Handles with soft curves and a hand-flattering feel that celebrate the comeback of organic shapes in furniture design. But also lines that are clear, simple and functional in the best sense.

If pebbles were handles

Nature is a wonderful source of inspiration for designers. Inspired by the shape of smooth, round pebbles, the result is a handle collection with maximum suppleness and comfort. Without corners and edges, but slim and elegant, this handle combines the restrained minimalism of the North with organic design.
